

SPECIFICATIONS FOR ASPHALT SURFACE TREATMENT

Amendment 2 (Edits noted in red)

Base Project: Asphalt Surface Treatment applied to approximately 64,900 SY of Streets in the City of Fort Pierre.

The successful bidder is to furnish and install approximately 105 tons of asphalt surface treatment oil and 780 tons of asphalt surface treatment aggregate. Bidder shall provide the CRS-2P Oil with SDDOT Type 1B aggregate.

Application Rates:

Single Application (Typical unless noted otherwise)

Oil applied at 0.38 gallons per square yard cold measure
Aggregates applied at 24 lbs. per square yard.

Alternate Project: Asphalt Surface Treatment with reclaimed aggregate applied to approximately 25,000 SY of the City of Fort Pierre Streets.

The successful bidder is to furnish and install approximately 40 tons of asphalt surface treatment oil and haul from city stockpile and install 300 tons of reclaimed asphalt surface treatment aggregate. Bidder shall provide the **AE150** Oil to be used with the City's reclaimed aggregate.

Application Rate:

Double Application All Alternate Project Locations

1st Application Oil applied at 0.40 gallons per square yard cold measure
Aggregates applied at 24 lbs. per square yard.

Allow full cure prior to placement of second application

2nd Application Oil applied at 0.40 gallons per square yard cold measure
Aggregates applied at 24 lbs. per square yard.

Base Project and Alternate Project:

Contractor will be responsible for to place aggregate to cover oil completely.

Final brooming will be provided by the City of Fort Pierre.

Contractor will be responsible for all equipment, signing, brooms, pilot car, etc. to complete the Seal Coating. Aggregate piles shall be "washed" by applying water sufficient to achieve surface saturated conditions 24 to 48 hours prior to placement.

Contractor is responsible for brooming streets prior to application of surface treatment.

Contractor shall provide copies of Insurance and Worker Compensation.

The SD DOT 2015 Standard specifications Sec 360 will be used as a guideline for placement and material specifications. Section 881 shall apply to contractor furnished aggregate.

Final quantities will be determined prior to issuance of the contract, information will be provided by City, and contractors will agree to all terms and conditions set forth by the City.

Work to be completed by August 15, 2022. Liquidated Damages of \$250 per day may be assessed.

The surface treatment will be applied at various locations around the city of Fort Pierre. Attached is a list of the streets expected to receive Surface Treatment at time of the bid. Final locations for application of the surface treatment will be determined prior to issuance of the contract.

Base Project Bid Unit Prices:

Asphalt Surface Treatment Aggregate (24 lbs per SY) \$ _____

Asphalt Surface Treatment Oil (0.38 Gal per SY) \$ _____

Alternate Project Bid Unit Prices:

Reclaimed Asphalt Surface Treatment Aggregate
(24 lbs per SY) \$ _____

Asphalt Surface Treatment Oil (0.40 Gal per SY) \$ _____

Bidder is aware quantities are estimates and may be adjusted to accommodate changes in scope of work or actual conditions.

The Bidder is aware that Owner has the right to select any combination of projects or may elect to reject all bids.
