

The City of Fort Pierre is placing a water restriction for all system users effective **9:00 p.m. today, Tuesday, March 23 until further notice, while a leak is located and repaired.** The Bureau of Reclamation and Mni Wiconi will be repairing a water leak in their trunk line that serves the City of Fort Pierre and other communities. The water will be shut off and we will be using water from our storage water supply. This restriction is put in place to minimize issues with supply during this time, including fire protection.

We are asking our customers to **limit unnecessary water usage** during this time and we will put out another notification when the restriction is lifted. If you have any questions please call the City Office at 223-7690. We thank you for your cooperation in this effort.
